Course Evaluation Form

Title:

Date: 6-9-14

Location: Leprino

Instructions: Please complete the following statement by circling the one number that describes your rating. The rating scale ranges from 1 to 4, where 1 = poor; 2 = fair; 3 = good; and 4 = excellent.

	Score	Poor 1	Fair 2	Good 3	Excellent 4
1. My instructor provided instruction and help during my skills practice session.				3	
2. My instructor answered all my questions before my skills test.				3	
3. My instructor was professional and courteous to the students.				3	
4. The course learning objectives were clear.				3	
5. The overall level of difficulty of the course was appropriate for my needs.				3	
6. The course content was presented clearly.				3	
7. The quality of videos and written materials was...				3	
8. The equipment was clean and in good working condition.				3	
9. The course prepared me to successfully pass the skills session.				3	
10. I am confident I can use the skills the course taught me.				3	
11. I will respond in an emergency because of the skills I learned in this course.				3	
12. How would you rate this course as an opportunity to obtain professional education credit or continuing education credit.				3	

Have you previously taken this course via another method, such as in a classroom or online? Which learning method do you prefer and why?

I have taken this in a classroom setting - which I prefer - there is more hands-on learning about different rhythms, what to do + the meds to be given

Were there any strengths or weakness of the course that you would like to comment on?

liked that questions were asked to several class so everyone can answer

Would you have any suggestions you would like to see in future course developed by the AHA?

Upon completion, hand in eval to Sara Schabbing, University Health ACLS Coordinator, or mail directly to: American Heart Association, ECC Training Department, 7272 Greenville Ave., Dallas, TX 75231.

If you have significant concern about the course, please call the AHA directly at 877-AHA-4CPR
