Hello everyone. I wanted to give you the edited version of the Specimen Integrity Policy that I have completed. I merged and added everyone's changes into one document. If you see that I missed anything, please make the changes with the tracking option turned on, and save them. Then "**reply to all**" with the document as an attachment back to everyone. Please make the changes you have on the previous person's document that has been sent and so on. This will help in tracking everyone's changes.

Please have your changes or approvals back to me by Wednesday, June 11th, so I can present to PPPPC by Thursday, June 12th.

Thanks for your help everyone!

Becky
